Meetings To-Night.

Attention is requested to notices in our advertising columns calling Republican meetings to-night in Madison and Union Districts for the purpose of selecting can didates for School Commissioners and other offices.

### The Wheat and Cotton Crops.

It is supposed now that the wheat crop this year will foot up . 350,000,000 bush els. Although the crop is materially larger than last year it will not bring as much money. The price has fallen say 25 cents per bushel, which will apparently reduce the receipts \$87,500,000. This is certainly a great deficiency, but it is entirely owing to bountiful harvests, not only on the continent of Europe but also in England, which is the only customer for American wheat.

The cotton crop for this year is estimated by the Agricultural Bureau at 3,500,000 bales, but other estimates place it as high as 4333,000 bales. Of this amount we will send abroad say 70 per cent (as we did last year) or 3,033,100 bales. But the price this year (as in the case of wheat) is materially lower than it was last: lower, in fact, than for three years past. Last September the files of the INTELLIGENCER show that cotton was quoted as high 201 cts. per pound, while at this time it is selling at about 161 cts., a decline of 4 cts. per pound, which is an immense loss on the amount we send abroad. The essential difference in a decline in wheat and cotton consists in the eact that we consume the most of the former crop ourselves, while we export the most of the latter. But there is this consolation to the growers of cotton in the decline, that it will stimulate consumption in Europe and thus tend to give this country a more complete control than it now enjoys of the cotton markets of

The New York Tribune believes that the prospects of those engaged in the culthe prospects of those engaged in the cul-tivation and manufacture of cotton in the United States were never better, taking a United States were never better, taking a broad view of the future. It expresses the opinion that the heavy crops of breadstuffs throughout the world, and the consequent lower prices for food, insure for the coming twelve months a larger consumption of cotton goods than has ever yet been reached.

Reduction of Railroad Expenses.

We have not seen thus far this year any statement showing the receipts of the Baltimore & Ohio road, or the Cleveland the contest. So voting was resorted to & Pittsburgh, as compared with last year, and hence can only judge of their prosand hence can only judge of their prosperity by a statement just published in
regard to the Pennsylvania road. This
road, while it carned less money (gross)
from January 1st to July 1st this year
than for the same time lest year yet it. than for the same time last year, yet it father, Mr. Lowe, the Superintendent of increased its net earnings very materially. In other words, while its gross earnings were only \$9 930,362 52 this year, as companied with \$11,153 201 58 lest near and laws or eight entries were made. pared with \$11,175,321 58 last year, yet its net earnings were \$4,329,577 54 as against \$3,895,294 88 last year.

We suspect that what is true of the Pennsylvania road is true of very many roads of the country, although we see that it is not the case with one of our West Va. roads, the Chesapeake & Ohio. A loud huzzas and clapping of hands. year ago this road was earning more net money than it is now, which seems singular. For instance in June of last year, on a business of \$116,001 16 it earned net \$25,300 85, while this last June on a business of \$125,564 07 it only earned net \$18,828 86. From this showing it would seem that the Chesapeake & Ohlo road is and fairly contested. "Wild Tom" won carrying freights at very low rates. In in three straight heats. "Dutch Girl" other words, it is paying an increased premium for business as compared with between the record of the straight heats. "Dutch Girl" second. The sweepstakes pacing race was won by the Frasier horse after a close and expremium for business as compared that citing race.

last year, for we cannot suppose that citing race.

On Friday the features of the speed legitimate expenses on the road. The road is new and in good order, and yet it costs \$106,735 21 to do \$125,564 07 worth of business. This is not very encourag-ing to stockholders most assuredly. If business can only be secured at such a sacrifice of net earnings, it will be many days before they see a dividend.

## Decline in the prices of Iron in England.

As will be seen from the following statement of English quotations, the prices of iron have fallen about in the same ratio as values have here:

Aug. 23, Aug. 29, Aug. 80, 1874. 1673. 1872. 187 Bars, &c , British . £ 9.15
Nail rods . 10.15
Hoops . 12.15
Sheets . 14.5
Bars, Wales . 9.5
Rails . 9.5 Rais Pig, No. 1 Clyde... 4.12 Swedish 17.2

But this decline in prices has not been attended with anything like the average export of iron to the United States, as will appear from the following figures of quantities of iron shipped from the United Kingdom to the United States, during the first seven months of the year.

Public Schools and Cathelicism. New Haven, Sept. 21.—There is much excitement in this city to day over the election of three members of the Board of Education and other minor officers, owing to the fact that a prominent Roman Catholic clergyman had announced from his pulpit that it was time for Roman Catholics to act, and set control of the Heavi pulpit that it was time for Roman Catholics to act, and get control of the Board, so that their schools might be supported by public funds. A Catholic ticket was in the field, and two members of the present Board are of that religious belief. The excitement called out a vote of over 5,000, which was unprecedented in the history of New Hayen. At the school
